FULL STACK DEVELOPER

PROFESSIONAL SUMMARY

Full Stack .NET Developer with 6+ years of experience designing, developing, & deploying scalable enterprise applications using C#, .NET Core, ASP.NET Core Web API, Angular, Microsoft Azure, & SQL Server. Experienced in modernizing monolithic applications into Azure-based microservices, optimizing application performance, building secure RESTful APIs, & implementing automated CI/CD pipelines. Improved system throughput by 35%, reduced frontend page-load latency by 45%, & maintained 85% test coverage. Skilled in Agile/Scrum delivery, SOLID principles, prompt engineering, & AI-assisted software development using GitHub Copilot.

TECHNICAL SKILLS

Programming Languages: C#, TypeScript, JavaScript, SQL

Backend Development: .NET Core, ASP.NET Core, ASP.NET Web API, RESTful APIs, Microservices, Entity Framework Core

Frontend Development: Angular 16/17/18, RxJS, NgRx, HTML, CSS, Single-Page Applications

Cloud & DevOps: Microsoft Azure, Azure App Services, Azure Functions, Azure DevOps, CI/CD Pipelines

Databases: Microsoft SQL Server, SQL Query Optimization, Database Performance Tuning

Security: JWT Authentication, Azure Key Vault, API Security

Testing: xUnit, Jasmine, Karma, Unit Testing, Test Automation

Engineering Practices: SOLID Principles, Agile/Scrum, Code Reviews, Performance Optimization

Artificial Intelligence: Prompt Engineering, AI-Assisted Software Development, GitHub Copilot, AI-Assisted Code Generation & Documentation

PROFESSIONAL EXPERIENCE

Software Engineer 2

Deloitte USI — Hyderabad, India | Hybrid | June 2023 – Present

- Architect & develop scalable enterprise web applications using C#, .NET Core, ASP.NET Core Web API, Angular, & Microsoft Azure, improving overall system throughput by 35%.
- Decompose legacy monolithic backend applications into Azure-based microservices using Azure Functions & Azure App Services, reducing operational downtime.
- Develop modular & responsive user interfaces using Angular 17, TypeScript, & RxJS, reducing frontend page-load latency by 45%.
- Design & optimize complex SQL queries & Entity Framework Core implementations to resolve database performance bottlenecks in Microsoft SQL Server.
- Configure & maintain automated CI/CD pipelines in Azure DevOps to support reliable & zero-downtime production deployments.
- Apply SOLID principles, reusable design patterns, code reviews, & Agile delivery practices to improve application maintainability & quality.
- Use prompt engineering & AI-assisted development tools, including GitHub Copilot, to support code generation, debugging, test creation, documentation, & developer productivity.

Software Engineer 1

Deloitte USI — Hyderabad, India | Hybrid | October 2020 – June 2023

- Developed RESTful Web APIs using ASP.NET Core & integrated backend services with Angular single-page applications.
- Built reusable Angular components using TypeScript, RxJS, & frontend development best practices.
- Created backend unit tests using xUnit & frontend tests using Jasmine & Karma, contributing to 85% code coverage.
- Implemented JWT authentication & Azure Key Vault integration to strengthen API security & protect sensitive application data.
- Investigated & resolved application defects, performance issues, & database-related bottlenecks.
- Collaborated with product managers, UI/UX designers, QA engineers, & cross-functional development teams in an Agile/Scrum environment.
- Participated in code reviews, technical discussions, sprint planning, backlog refinement, & production support activities.

EDUCATION

Bachelor of Technology in Computer Science | Osmania University | 2016 – 2020 | 2nd University Rank | Silver Medalist

CERTIFICATIONS

Microsoft Certified: Azure Fundamentals — AZ-900 | GitHub Copilot Certification — GH-300 | Certified SAlFe® 5 Practitioner | Angular – The Complete Guide — Udemy

LEADERSHIP AND IMPACT

- Led & mentored large volunteer teams across Deloitte Impact Day initiatives as a Cluster Lead
- Coordinated large-scale educational & digital literacy programs impacting 500+ beneficiaries
- Chief Coordinator, Computer Society of India – led 100+ members & organized city-level hackathons
